

The members of the SW Pennsylvania Chapter of the American College of Surgeons pay dues to belong to this organization. The benefits of membership include receiving notices of meetings, College information, and newsletters. Members have provided their email addresses to make this happen in the most expeditious way possible.

They receive their notices without interference and timely. To require members to submit a signature in order to receive e-mail that they demand as part of their membership benefit is not member friendly not cost conscious.

Dianne Meister, Chapter Administrator
